Light Lunch for all

What is the REBUILD Centre?

The Jean Monnet Centre of Excellence REBUILD ('Recovery of Europe, Budget of the Union: Integration, Law & Democracy') is a project set up in 2021 by the DCU Brexit Institute, funded under the EU Erasmus+ programme, and led by Professor Federico Fabbrini. The aim of REBUILD is to examine in depth the innovative €750bn Next Generation EU (NGEU) Recovery Fund, put together by the EU institutions and the member states to respond to the devastating socio-economic consequences of the Covid-19 pandemic.

REBUILD, which is the first Jean Monnet Centre of Excellence at DCU, and the first project of its kind in Europe, is designed to examine NGEU, focusing on its governance, values and funding, and exploring the significance of this development on the process of European integration. The project builds on the international network of the DCU Brexit Institute and draws on the unique interdisciplinary expertise of DCU's staff in law, politics and political economy. As such, REBUILD aims to be an innovative hub of research excellence, providing thought leadership in this field, including to policy-makers and business leaders.
